This register contains the census records for all the Danish counties for the years 1787 - 1911, including a Heads of Families census in 1771, and a special census of the institutions of the blind and deaf, which was taken in 1860.

There are also census returns for the Faerø Islands 1801-1911, Greenland 1840-1911, Slesvig-Holsten 1803-1860, the Virgin Islands 1841-1911, and two Danish possessions in India: Tranquebar, Madbras 1834, and Fredriksnager, Bengal 1840. These special census records will be found at the beginning of the register, before the first census for Denmark.

This register is arranged alphabetically by the Amt (counties), with each county being paged separately. Within each county record the købstæder (incorporated cities) are listed first - alphabetically, then chronologically, with the street names listed alphabetically if the record is more than one roll.

The county records are listed chronologically. In the earlier years the counties are divided by districts, and in later years the records are listed alphabetically by Herreder (districts) within each year the census was taken, and within each Herred the Sogner (parishes) are listed alphabetically.

Copenhagen city has been recorded separately from Copenhagen Amt because of the size of the record, and will be found after the records of the county.
